PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology student with a strong foundation in programming, object-oriented analysis, and design. Demonstrates leadership, project management, and collaborative problem-solving skills. Eager to apply data-analytical expertise to data-driven projects within a dynamic organization.

EXPERIENCE AND LEADERSHIP

Capstone Project Lead | Containerboard Packaging Corporation (CPC)
Carmelray Industrial Park II, Calamba City, Laguna | June 2025 - March 2026

- Led the capstone project through successful implementation of a centralized system for CPC.
- Managed the development team by assigning tasks, monitoring progress, and ensuring project goals were met.
- Collaborated with team members to design and implement a system centralizing Sales, Production, Inventory, and Logistics operations.

Capstone UI/UX Designer Lead
Calamba City, Laguna | June 2025 - March 2026

- Led the UI/UX design to establish the frontend of a centralized system.
- Assisted our main web developer as a backup web developer for the system.
- Applied HTML, JavaScript, CSS, and PHP to develop a user-friendly and fully functional centralized system.
